EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason Link on 12/5/2006.

The application has been amended as follows:

In The Claims

Claim 1, line 4 after "by" insert - - outside payout of - - , delete "paying out"; line 5 delete "the outside of".

Claim 6, line 2 after "loom" insert - - by outside payout of the forming package - -.

Claim 23, line 2 after "loom" insert - - by outside payout of the forming package -

Claim 41, line 8 after "package" insert - - , wherein yarn from the at least one forming package is provided directly to the loom by outside payout of the at least one forming package - -.

The following is an examiner's statement of reasons for allowance: independent claims 1, 6, 23, 41 and the respective dependent claims are allowed because the instant invention requires weaving fabrics from fill yarns that are directly fed through outside payout to the loom from forming packages, skipping the winding stage to

bobbins as in prior art processes. This takes into account applicant's specific definition of "forming package" and "outside payout" as understood in the fiberglass industry and specifically recited by applicant in remarks dated 11/16/2006. With this specific definition for "forming package" the claim language, in essence, is a negative limitation excluding the use of bobbins (defined by applicant as type of yarn package that is wound from so called "forming packages") wound from yarn from "forming packages", which are commonly the normal process flow in the art of fiberglass woven fabrics. The instant invention decreases process steps by foregoing the so-called "bobbin-winding step", decreases yarn twist (desirable in fiberglass weaving), and provides so-called "outside payout" decreasing abrasion of the fiberglass yarns.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Muromoto, Jr. whose telephone number is 571-272-4991. The examiner can normally be reached on 8-530, M-F.
